Free Dental X-Ray & OPD Checkup Every Friday – City Dental Clinic & Implant Centre, Rewa (M.P.)

Introduction

Dental health is often ignored until pain or visible problems appear, but by then, treatments can become complicated and costly. Regular checkups and X-rays can detect issues at the earliest stage, making treatment easier, faster, and more affordable.

At **City Dental Clinic & Implant Centre, Rewa,** we understand that many people hesitate to visit a dentist due to cost concerns. To break this barrier, we proudly introduce our **Special Friday Offer** – a **Free OPD Checkup and Dental X-Ray** every Friday. This initiative is aimed at spreading awareness about preventive dental care and making modern dentistry accessible to everyone in Rewa and nearby areas.

Why Dental X-Rays are Essential?

Dental X-rays (Radiographs) are a modern diagnostic tool that provides a detailed look at teeth, bones, and surrounding tissues. Here's why they are important:

1. **Early Cavity Detection:** X-rays show decay between teeth that cannot be seen with the naked eye.
2. **Gum Disease Diagnosis:** Helps identify bone loss caused by periodontal disease.
3. **Wisdom Teeth Positioning:** Detects impacted or misaligned wisdom teeth.
4. **Hidden Infections:** Locates abscesses, cysts, and other hidden infections.
5. **Treatment Planning:** Essential before implants, braces, extractions, and root canal treatments.
6. **Monitoring Growth:** For children and teenagers, X-rays help track tooth development and eruption patterns.

By offering free X-rays, our clinic empowers patients with a clear understanding of their oral health.

Details of the Special Friday Offer

📅 **Day:** Every Friday
🕒 **Time:** 3:00 PM – 9:00 PM
🏢 **Location:** Boda Bagh Road, Housing board colony, Rewa, Madhya Pradesh 486003

- 💰 **Affordable Treatment Plans:** Quality care at reasonable cost.
- ♡ **Patient-Friendly Approach:** We focus on making every patient feel comfortable and confident.

Community Benefits of Free Dental Fridays

- Encourages people to **take the first step** toward oral health.
- Helps in **early detection** of serious dental issues.
- Reduces the burden of **expensive emergency treatments**.
- Spreads **awareness about preventive dental care** in Rewa.
- Builds a healthier, smiling community.

Patient Awareness – Don’t Ignore These Symptoms

You should not delay visiting a dentist if you experience:

- Toothache or sharp sensitivity to hot/cold.
- Swollen or bleeding gums.
- Bad breath that doesn’t go away.
- Jaw pain or difficulty chewing.
- Loose teeth or shifting teeth.
- Swelling near the face or neck.

These are signs of underlying dental issues that can be detected easily during our free checkup.

Conclusion

Your smile is your identity – don’t let dental problems hide it. At **City Dental Clinic & Implant Centre, Rewa**, we are committed to making dental care accessible for all. Our **Special Friday Offer** of **Free OPD Checkup and Dental X-Ray** is a community service initiative to promote oral health and awareness.
